| Non-members | \$125 | \$135 | \$145 |

This workshop will include 8-hours of instruction, presentations, discussion, and activities used to teach primates to cooperate for veterinary, research, and behavioral management care behaviors. This workshop will include a review on basic terminology and techniques and focus on training and techniques to treat behavioral issues, specialized veterinary treatments, enrichment use, research and veterinary management. We will present case studies and use problem solving techniques to discuss how to address individual needs and techniques that promote training engagement. This workshop is designed for those working with primates in the zoo, sanctuary and research environments including caregivers and keepers; behavioral management specialists; veterinarians and veterinary technicians, curators and supervisors; research personnel.

SPEAKERS:

- Dr. Heidi Hellmuth, St. Louis Zoo
- Dr. Liz Magden, MDACC
- Dr. Melanie Graham, Univ. of MN
- Andrea Franklin, ENPRC
- Caroline Griffis, Save the Chimps
- Jaine Perlman, ENPRC
